The Holy Bible is a book of divinely inspired structured codes. Codes? The Word or God's law is code, His code. But the Holy Bible is literally coded throughout. Matter of fact it is literal code. On the surface God communicates His immediate agenda for man, however the scriptures are fixed in equations. This checks back to the sovereignty of God.

The entire bible is one large set of algorithms and equations. The variable components of the new covenant is a perfectly balanced inverse of the old covenant. The algorithms and equations in the bible are designed to check facts true affirming or reaffirming code signatures. All things that have a name have a code signature. This means there is always a way to trace something about it. "The entire bible is a giant book of anagrams, the WHOLE BIBLE." I explain in my book, "[Key of David](#)," how all words in life or in the Word check and affirm back to a source. However there are hidden rules that have to be applied to reveal the depths of the code or cod. Cod?

Early Christians would communicate in code with a fish drawing to recognize each other. One person would draw an arc and the other would complete the image of the fish with another arc. The bible works the same, **cod + e = code** messages. God's angle of code is multifaceted, hence **Jew-El** and **angle = angel**. One must understand the Word, God reveals and speak through the dimension of time to His future readers as He modeled and spoke in the past/present.

### Coded sarcasm of the Word.

Here are a few examples of coded mess-ages that you read in between the line of the bible:

"Wolves in sheep's clothing."

1. Wolves is an anagram for vowels.
2. Vowels in sheep's clothing.
3. Wool is the clothing.
4. Hebrew language developed vowels in latter time.

5. Men develop and consume lies that turn to sh\*t. (Genesis 3)

6. Ezekiel describes the cherubim as ox faced creatures with wings and hands. Satan was a bull that manifest himself into a serpent to deceive. That BS is true!

7. God move men, men move bowels.

8. Deception leads to death.

Wool can be found in wolves through vowels or their bowels. Learn your vowels by howling or moving the bowels. AEIOU is found when man sh\*ts, deception is BS. "Help with English" spoken backwards is "Show me the way!"
